

Special D
BAKING

Frozen in Freshness

Means delicious, high-quality convenience

Imagine this handmade perfection: industry high-end ingredients create light and fluffy texture, topped with signature creamy icing or luscious glazes. Like a donut made fresh at the bakery, the sweet combination simply melts in your mouth. Only this time – it was thawed!

Convenience and indulgence collide

To create something crave-worthy, you need to start with the best—and that's why we use only premium ingredients. Our tested process (five years in the making!) and innovative packaging ensure those ingredients, like real chocolate, taste perfectly fresh after thawing. Your customers will notice the commitment to quality in every single bite—and you'll see just how easy and cost-effective *Thaw + Serve* is.

Never a flaw when you thaw

Our *Thaw + Serve* donuts are conveniently delivered to your store, ready to thaw. You'll eliminate the need for expensive equipment like fryers, exhaust hoods, and fire suppression systems. You'll eliminate big clean up and the time it takes to prepare, fry and decorate your donuts—yet maintain the quality and flavour you'd expect from the local ma and pa bakery. Look at it this way: you're in control and can always have the right amount of donuts to satisfy your shoppers. Maximize what you sell and significantly minimize what you waste. This yield versus shrink benefit goes unmatched.

How we sweeten perfection

Trained specially in the art of donut making, our employees handmade a consistent, top-quality product with each and every donut that goes out our doors. From all-time classics to modern twists, our donuts are completely customizable and equally delicious. Contact us to learn more.
